Bring colour and flexibility to your lighting with the **18W RGB+CCT LED downlight**. This powerful LED downlight gives you the opportunity to customise the lighting to your liking and create the perfect atmosphere every time.

The **18W RGB+CCT LED downlight** can be controlled with a **radio remote control** and/or a **WLAN controller** for **iOS and Android**, both of which are available separately (see accessories). These control options make it easy and convenient to customise the lighting so that you can create the desired lighting mood for any occasion.

With an output of **18W** and a light output of **1500 lumens**, this downlight provides bright and efficient illumination. The variable colour temperature of **2700K to 6500K** allows you to select both warm and cool white tones. The downlight is also dimmable from **1% to 100%**, giving you maximum flexibility in lighting design. The **light efficiency of 85LM/W** and a **colour rendering index (CRI) of over 80** ensure natural and vivid colour reproduction.

The **18W RGB+CCT LED downlight** has a wide beam angle of **120°**, which ensures uniform light distribution. It is designed for a voltage of **AC100~240V 50/60Hz** and the power supply unit is already included. With a power factor of **over 0.5**, this downlight is particularly energy efficient. The robust construction made of **aluminium** guarantees a long service life of up to **50,000 hours**.

Thanks to the **control range of up to 30 metres**, you can easily adjust the lighting from a distance. The downlight fits into a hole size of **ø150mm** and has a compact design that enables easy installation.

This LED downlight is ideal for illuminating living rooms, offices and other indoor areas. With the **18W RGB+CCT LED downlight**, you get a high-quality and flexible lighting solution that adapts perfectly to your needs.
