

Synergy 21 LED remote smart panel RGB/RGB-W 4 Zonen *Milight/Miboxer*

Discover the **4-Zone RGB/RGBW Smart Panel Remote Controller**, an intelligent solution for the precise control of your RGB and RGBW lighting systems. This advanced **Smart Panel** allows you to easily and individually adjust the lighting in up to four separate zones.

With a flexible **operating voltage of AC90110V or AC180240V**, the controller offers versatile installation options. The high **transmission frequency of 2400-2483.5MHz** ensures a **stable and interference-free connection**, while the **GFSK modulation** is responsible for precise and reliable control of your lighting.

The **transmission power of 6dBm** gives you a **range of up to 30 metres**, giving you the freedom to place the panel wherever you want in your room. The compact and elegant design of the **panel with dimensions of 86x86mm** blends harmoniously into any wall mounting and adds a modern touch to your home.

The **4-Zone RGB/RGBW Smart Panel Remote Controller** not only allows you to control the colours and brightness in different areas of your home, but also to fine-tune the light intensity according to your personal preferences. It is the ideal solution for anyone looking for **customised lighting with user-friendly control**. Optimise your lighting control and enjoy the benefits of the **4-Zone RGB/RGBW Smart Panel Remote Controller**.
