

Synergy 21 LED remote single color touch dimm* Milight/Miboxer*

The **Touch Dimming Remote Controller** offers a modern and user-friendly solution for controlling your lighting. With this remote control, you can adjust the brightness of your lighting intuitively and precisely, making it ideal for use in living and working areas.

Powered by a voltage of **3V**, the remote control requires two AAA batteries (not included). It utilises a transmission frequency of **2400-2483.5MHz** and the **GFSK** modulation method to ensure a stable and reliable connection. With a transmission power of **6dBm**, you can control your lighting from a distance of up to **30 metres**, giving you maximum flexibility and convenience.

An outstanding feature of this controller is the extremely low standby power consumption of only **10uA**, which ensures a long battery life. The touch-sensitive surface of the remote control allows you to easily and quickly adjust the light intensity so that you can create the perfect lighting mood at any time.

The **Touch Dimming Remote Controller** impresses with its compact and elegant design that fits perfectly in any hand and blends seamlessly into any environment. Experience the benefits of precise and user-friendly lighting control with this advanced remote control. Order now and enjoy the flexibility and convenience offered by the **Touch Dimming Remote Controller**. Create the ideal lighting atmosphere for any occasion with just one touch.

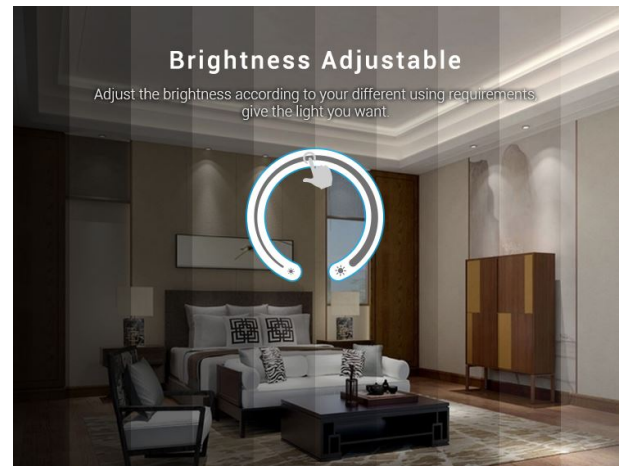

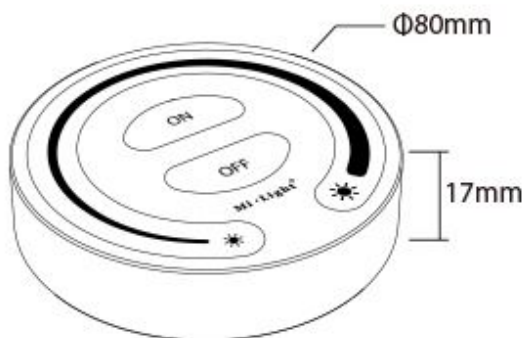

Product Name: Touch Dimming Remote Controller
Model No.: FUT087
Working Temperature: -20 -60?
Voltage: 3V(2*AAA Battery)
Transmission Frequency: 2400-2483.5MHz
Modulation Method: GFSK
Transmitting Power: 6dBm

Standby Power: 10uA
Control Distance: 30m

Attributes

Attribute	Value
Weight:	0.1 Kg
Warranty:	24.00 Months
